

3CS Southwest

Fall 2024
CISA: Region 6 & 9

What to Expect at the 3CS Events

Why Symposia? Symposia is the plural form of symposium. Each Cybersecurity Capabilities and Career Symposia (3CS) includes a symposium in each of the 5 areas below.

1. Community College Cyber Summit: Sessions focused on practice improvements in cybersecurity education.
2. Cyber Science and Practice Symposium: Sessions focused on evidence-based professional and educational practices – the human factors of cybersecurity.
3. Cyber Capability Maturity Symposium: Sessions focused on cybersecurity skill development for IT professionals through hands-on workshops in computer labs.
4. Cyber Education and Careers Symposium: Exhibit hall with demonstration sessions and a career fair – combining a job fair (employer booths) and a talent fair (job candidate booths).
5. Cyber Games, Simulations, and Competitions Symposium: Sessions focused on the design, development, and effectiveness of individual and team-based interactive challenges, some of which can be experienced in the Cyber Ready Arcade and Cyber Ready Gym.

Who Should Attend?

1. Students looking to jump start their careers.
2. Employers and Hiring Managers who need to recruit, hire, develop, and retain a skilled cybersecurity workforce.
3. Educators from K12 schools, Community Colleges, 4-year schools.
4. Managers of workforce development programs.
5. Organizers of community economic development initiatives.
6. Developers of innovative products and services that enable developing a skilled workforce.
7. Policymakers from local, state, federal, and international government agencies.
